

Hello Les,

We just wanted to express our appreciation to you for meeting with us today, and for all of your help, guidance, and expertise in preparing and drafting our wills. You made a very scary and daunting task seamless and easy to undertake and follow through to fruition. You are a true master at humanizing the complex legalese involved in wills and estate planning and preparation, with the end result being the protection of the people that you are entrusted to serve. Unfortunately, the humanization of the law is not often practiced nor demonstrated in the legal profession, to the detriment of an untold number of people deserving of the respect and protection that this would accord to them - you are one who rights this age-old wrong, and we commend you for that - you do your dear parents and your little brother proud.

It was an absolute honor and privilege to have worked with you and to have met with you today - to us you are not only our extremely skilled lawyer who we feel we are so fortunate to have, but a genuinely honest, warm, and wonderful human being - you sir, are one of a kind. With all sincerity, we thank you.

With kindest regards,

Sandie and Dave V
